TUTALY – COMPLETE SHOP STRUCTURE DOCUMENT

HOW SELLING WORKS ON TUTALY

PRICING SYSTEM

When creating a listing, sellers must choose ONE pricing type:

• Price per Unit
• Request a Quote

If “Price per Unit” is selected:

Seller must provide:
• Price
• Unit (e.g., per item, per person, per hour)
• Minimum quantity

If “Request a Quote” is selected:

• No price is required
• Buyers will see a “Request Quote” button instead

Optional:

Sellers can add:
• “Final price may vary based on scope” (services)

REFUND & DELIVERY NOTE

• All payments must be held by the platform until delivery is confirmed

• Buyer has a limited time (3 – 6 days) after delivery to:

* Confirm delivery, or

* Report an issue

• If buyer confirms delivery → release payment to seller

• If buyer does not respond within the time frame → system automatically releases the payment

If buyer reports an issue:

* Payment is put on hold

* Admin reviews and decides:

- Refund buyer, or
- Release payment to seller

- If seller fails to deliver → full refund to buyer

FINAL SUMMARY
- All payments go through Tutaly
- Tutaly earns from commission on every payment
- Sellers choose a simple pricing method when listing

PRODUCT CATEGORIES AND SUBCATEGORIES
